- Payment due at time of registration
- Limited space is available
- Registration is on a first come, first served basis
- Age requirements are firm, no exceptions

### SPRING 2018

#### **Cosmic Constellations | \$15**

May 10, 1:00-3:00 p.m.

Ages 6-8

Calling all astronomers! After we learn all about the stars and the pictures they make, we will create our very own constellations and build a real planetarium!

#### **Journey to the Moon | \$25**

May 10-11, 1:00-3:00 p.m.

Age 9-15

Be among the first humans to return to the moon since 1972! Astronauts will spend one session training for their journey. During the last session they will determine the best landing spot and fly to the moon in our space simulators.
